THE LIFE AND WORK OF THIS CHURCH

Please read the attached report from the Visioning Committee

At the AFM we heard from Wes Marsh, who heads a group we called the Visioning Committee. That group was open to anyone who wanted to attend. It began when we started to have discussions about the future of our church. Looking at demographics, at the trends in society, at what other churches are experiencing, there is no question that things are changing with respect to the place and role of churches. What does//will this mean for WUC?

We don't know, but it's not a good policy to hide our heads in the sand and hope things "get better". The fact that the baby boomers are ageing is making a difference in everything in society. That's just one factor. There are more people from different religions, no religions, different ethnicities....it's an exciting and challenging time to be the church. HOW WILL WE MOVE INTO THE FUTURE?

So, we gathered for a few talks last year, just to talk about the changes. That led to people saying "we should DO something!" and so this group, the visioning group, was born. They met quite a lot in the summer because there were some young university folks who wanted to take part. Their input was very, very good.

You'll see from the attached report that they have done what they can for now. They are handing off their findings to relevant committees, and to Council, and to what will become a fundraising committee.

They have 81 recommendations, here attached. This is only the beginning of seeking what the Spirit is asking of us and where the Spirit is leading.

Please read their report, and let it spark in you imagination and trust and resolve for the future. Thanks to Wes and to those who took part!
